

Biological Anthropology

By Craig Stanford, Research Scientist John S Allen, Susan C Anton

Prentice Hall, United States, 2011. Loose-leaf. Book Condition: New. 3rd. 269 x 213 mm. Language: English . Brand New Book. From Foundation to Innovation: The Best of Biological Anthropology Biological Anthropology, 3/e is written as accessibly as possible to be useful to students at community colleges to research-oriented university levels. It continues to build upon the strength and success of its first and second editions by integrating the foundations and the most current innovations in the field from the ground up. Over the past 40 years, this field has rapidly evolved from the study of physical anthropology into biological anthropology. Biological anthropology is now an integrative combination of information from the fossil record and the human skeleton, genetics of individuals and of populations, our primate relatives, human adaptation, and human behavior. The third edition of Biological Anthropology combines the most up-to-date, comprehensive coverage of the foundations of the field with modern innovations and discoveries. Teaching and Learning Experience Personalize Learning MyAnthroLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking - Visual summaries, critical...
