

An Introduction to Scholarship, Building Academic Skills for Tertiary Study

By Cheryl Siewierski

Oxford University Press Inc, United States, 2015. Paperback. Book Condition: New. 242 x 170 mm. Language: English . Brand New Book. How do you bridge the gap between secondary and tertiary education so that you will succeed in the academic environment? How can you learn to think critically as you embark on your academic career? Which practical skills do you need to develop the cognitive expertise that forms the foundation of university preparation? Introduction to scholarship: a practical guide to building academic skills for tertiary study offers a practical, skills-based approach to developing the basic academic and critical thinking skills required to succeed in the tertiary environment. The book has a broad scope as it focuses on critical thinking and other cognitive skills which form the foundation of university preparation. The textbook assumes a generic, relatable and practical, coached approach to the theory and practice of academic skills and thinking. Each chapter begins with a relevant and familiar educational/life scenario that students will be able to relate to, after which each short section features basic theory, and then practice opportunities. The tone is humorous and collegial, which will encourage students to relate and co-create in their learning as opposed to...
