# TRAITS OF SALT TOLERANCE IN PLANTS:

Book Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Prospects for crop improvement | Soil salinity is an increasing threat and major constraint which limits agricultural productivity worldwide and is also common in most of the cultivated and irrigated areas of the world. Reduction in crop productivity in such areas is ascribed to its effect on diverse physiological, biochemical & heritable processes. Although considerable progress in understanding of individual physiological and biochemical phenomena and genes involved in plant response to...
